People Strategy Enablement				
Partner with people leaders to achieve business goals	Understand the business needs, goals, and strategy	- Maintain relationships with Business Leaders - Maintain oversight of critical business data and metrics - Understand workforce trends	HRBP; HR Partner; Compensation Partner	PPLA Adaptive Planning Prism Total Rewards Core HCM Peakon
	Keep leaders informed about their people	- Understand data in order to effectively advise people leaders - Develop a narrative to contextualise business metrics for leaders - Understand what investigative steps need to be taken with data - Understand what factors are driving business metrics - Answer queries about the workforce quickly and accurately	HRBP; HR Partner; Compensation Partner	
	Validate business needs	- Connect disparate pieces of data to inform a people strategy - Prepare for new strategy implementation to address business needs - Present strategy recommendation to address business needs	HRBP; HR Partner; Compensation Partner	
	Create people and talent strategies to support the business	- Collaborate with HR Centres of Excellence on workforce programs - Measure and assess the effectiveness of implemented strategy	HRBP; HR Partner; Compensation Partner	
	Implement strategy to address business needs	- Collaborate with HR Centres of Excellence on workforce programs - Lead cyclical programs such as succession planning	HRBP; HR Partner; Compensation Partner	
	Support ongoing HR Programs			
Help the business to make better decisions about its people	Empower colleagues to self-serve their data and insights needs	- Develop self-service products for individuals across the business --- (e.g. reporting features and dashboards) - Understand the data needs of different internal customers - Educate others on how to use data and insights tools - Get buy-in for engagement by Business Leaders - Pilot test tools and processes - Procure any necessary tools needed to support development - Make ad-hoc changes to the tools set-up - Measure the adoption and use of self-serve products by customers	HR Analyst; Comp Analyst	PPLA Adaptive Planning Prism Total Rewards Core HCM Peakon
	Provide timely, valuable workforce insights to the business	- Define the data and insights needs of individuals and teams in the business - Research, analyse, and assess workforce trends, such as: --- Hybrid work insights --- Compensation & calibration --- Belonging & diversity --- Skills insights --- Health & wellbeing --- Exit survey insights --- Leadership principles analysis --- Assessment Creation & Validation - Present data and insights to others in the business - Share insights with managers to enable interventions with employees - Respond to ad hoc data and insights needs of others around the business	HR Analyst; Comp Analyst	
	Maintain the quality, integrity, availability, and security of business data	- Develop standard metric definitions - Align dashboards and reporting across the business - People OKRs - Maintain employee data across systems	HR Analyst; Comp Analyst	
	Coordinate workforce planning across TA, Finance, and the Business	- Forecast attrition - Understand TA capacity - Provide leaders with a way of modelling workforce strategies - Help leaders to understand if they are working within budget constraints	HR Analyst; Comp Analyst	
Talent Acquisition				
Attract the Right Talent	Publish job postings that attract the right candidates	- Seek approval for job requisitions prior to posting - Approve job requisitions so that they can be posted - Discuss the details of the job requisitions with hiring managers - Gather all information up front so that the job requisition doesn't have to be edited later - Review job requisitions details prior to posting to ensure there are no errors - Create job requisitions in the system - Post jobs to the appropriate places (e.g. Career Site) - Remove postings when enough candidates have applied or the date expires - Report jobs that are low in applicant numbers	Recruiter; Sourcer	Workday Recruiting Candidate Engagement
	Source high quality candidates for active job requisitions	- Spend time on sourcing tools searching for prospects - Carry out boolean searches to find candidates that match job requirements - Review candidates that have applied for roles in the past - Invite specific prospects to apply to open job requisitions (e.g. on LinkedIn)	Recruiter; Sourcer	
	Maintain a pool of prospective candidates for future sourcing needs	- Keep track of promising candidates for potential future job openings - Retain the details of 'silver medalists' that were dispositioned from open role but showed good potential	Recruiter; Sourcer	
Manage Candidates throughout the Recruiting Process	Determine if candidate meets requirements of the job	- Review new candidates - Conduct screening interviews - Disposition unsuitable candidates - Refer candidates to hiring managers for review - Determine if a candidate is better for a different job / recruiter - Understand a candidate's application history for jobs with my company - Research internal candidate employment details	Recruiter	Workday Recruiting
	Progress candidates through the stages of the pipeline as efficiently as possible	- Schedule screeners/interviews - Communicate with hiring team and other stakeholders on shared tasks - Process feedback from all parties - Move candidates between job requisitions - Update candidate application status to match current stage - Keep track of candidate source (internal, external, referral) - Manage candidate needs (e.g. relocation, immigration) - Look for other open positions in the company for a candidate when the job requisition is filled	Recruiter; Recruiting Coordinator	
	Make a successful offer to the chosen candidate	- Prepare offer details - Research comparable salaries for profile/role in labor market - Ascertain the correct stock range for a position - Complete background check before sending offer - Get approval for offer - Keep track of where the offer is in the approvals chain - Remind approver to approve candidate offer - Prepare offer letter - Submit offer - Keep track of offer deadlines	Recruiter	
	Keep Candidates Engaged Throughout Recruiting Process	- Respond to candidates in a timely and personable manner. - Help candidates to understand the status of their job application - Provide feedback to candidates quickly and efficiently - Keep candidate expectations in check	Recruiter; Recruiting Coordinator	
Manage my assigned Job Requisitions	Keep track of JRs across Pipeline Stages	- Track new applicants to an open job requisition - Ascertain which job requisition are mine - Review which stages of the pipeline my job requisitions currently sit - Keep job requisition statuses up to date	Recruiter	Workday Recruiting
	Understand which job reqs are most in need of attention	- Identify job requisitions with high risk levels (e.g. low candidate numbers) - Identify job requisitions that have actions dependent on others - Prioritize job requisitions that have tasks related to Offer that need to be completed - Discuss priorities with hiring managers and other stakeholders - React to changes in priority of job reqs	Recruiter	
	Ensure that job requisitions have healthy statuses	- Begin sourcing for job requisitions with low candidate numbers - Initiate screening for JRs that have enough candidates in Review	Recruiter	
	Ensure that the details of each job requisition is accurate and up to date	- Update job requisition details (e.g. title, location) - Correct errors in job requisitions - Maintain historical records of closed job requisitions - Document my work in case someone has to take over	Recruiter	
	Understand where in the approvals process a request or job requisition currently sits	- Generate reports to understand where a job requisition sits - Identify the current approver	Recruiter	

High Level Outcome	Job	Task (How the job gets done)	Job Performer (example job titles / personas)	Relevant Workday Products/Features
Be an Effective Partner to Hiring Teams	Collaborate with hiring teams to hire the right candidate quickly	- Facilitate intake meetings with hiring managers - Send candidate information to hiring managers so that they can review - Collaborate with other recruiters on shared job requisitions - Communicate with manager of internal candidate - Nudge hiring managers if they haven't made an approval - Ask hiring managers to get candidate feedback into the system	Recruiter; Recruiting Coordinator; Hiring Manager	Workday Recruiting
	Help Hiring Teams understand the progress and status of a job requisition	- Keep records accurate and up to date so that others are looking at the right information - Keep hiring teams updated when I take an important action (e.g. move forward, decline, schedule interview) - Respond to questions from hiring teams about the current status of a job requisition - Educate hiring teams on the recruiting process	Recruiter; Recruiting Coordinator; Hiring Manager	
	Anticipate the hiring needs of teams ahead of time	- Understand the Hiring Manager's org structure - Familiarize myself with which teams and people I'm supporting - Plan future role hiring based on experience with the same role	Recruiter; Hiring Manager	
	Keep track of my team's status and challenges	- Communicate with members of the recruiting team to understand challenges with job requisitions	Recruiting Manager	
Foster an Inclusive and Equitable Recruiting Process	Ensure that there is a diverse candidate slate prior to hiring for an open job requisition	- Write inclusive job descriptions that don't inhibit underrepresented groups from applying to open roles - Identify talent pools that specialise in underrepresented candidates - Track levels of diversity across job requisitions - Attempt to understand how levels differ according to certain dimensions — E.g. Supervisory org. job level - Work with HRIS teams to create solutions to track diversity data without exposing sensitive candidate data - Create reports with required diversity data for compliance reporting	Recruiter; Sourcer	Workday Recruiting
	Understand the levels of candidate diversity within open job requisitions	- Schedule interviews within reasonable timeframes of each other to help ensure objective comparisons of candidates - Create training content for hiring managers and other actors in the review process - Increase levels of diversity within interview panels - Create candidate scorecards with objective assessment rubrics - Use masked candidacy features to facilitate blind recruiting	Recruiter; Recruiting Manager; Interview Coordinator; Hiring Manager; Instructional Designer	
	Ensure that candidates are assessed in a fair, equitable manner	- Identify areas of the pipeline with disproportionately high drop-off rates of diverse candidates — (e.g. Review, Interview, Offer) - Examine potential reasons behind high drop-off rates - Create strategies to improve the rate of progression of diverse candidates through the pipeline	Recruiter; Recruiting Manager	
	Identify areas of improvement in the recruiting process for better diversity outcomes	- Create strategies to improve the rate of progression of diverse candidates through the pipeline	Recruiter; Recruiting Manager	
Maintain high standards of efficiency and effectiveness	Meet my efficiency metrics as a Recruiter	- Meet my time-to-fill metrics - Keep track of how many hires have been made in a given period - Measure job req response rate	Recruiter	Workday Recruiting
	Maintain data integrity throughout the recruiting process	- Stay up to date on recruiting processes - Protect individual candidate data - Keep job req information accurate and up to date - Review assigned job requisitions to ensure there are no errors	Recruiter	
	Keep track of concurrent tasks that need to be completed	- Maintain an up-to-date calendar - Maintain an organised list of to-do items - Review inbox and other task management tools - Review calendar - Keep physical cues (post-it notes)	Recruiter	
	Ensure that time is made to action high priority items	- Block out time intentionally to complete tasks - Remind others to complete tasks that are needed to move things forward	Recruiter	
	Understand my capacity to take on extra projects	- Keep my manager informed about my workload - Review the statuses of active job requisitions	Recruiter	
	Identify ways that my HR systems can better meet my workflow	- Exchange efficiency tips with coworkers - Explore new features - Provide feedback to HRIS teams - Complete training on HR systems	Recruiter	
Talent Success Enablement				
Enable a meaningful Onboarding Experience	Help onboarding employees to establish vital interpersonal relationships and information networks	TBD	TBD	Onboarding Workday Learning Core HCM Workday Today Workday Journeys
	Provide employees with a sense of organizational norms	TBD	TBD
